Dear colleague –

We are writing to make sure you're aware of a recent issue with [redacted] 2015 usage reports. We recently uncovered an issue which caused PDF downloads to be undercounted in COUNTER 4 reports from the period of August 26, 2015 to November 23, 2015. This issue has now been resolved, and we have corrected and verified usage data for this timeframe.

We are contacting you because our records indicate that you ran one or more [redacted] COUNTER 4 reports during the impacted timeframe. In order to ensure that you have correct usage data, we kindly ask that you visit [redacted] and re-run reports for the impacted timeframe.

We apologize for any inconvenience this may cause. Please note only to [redacted] COUNTER 4 reports for usage between August 23, 2015. Other reports and other timeframes are not impacted.

Dear Librarian,

Thank you for subscribing to mathematics and statistics titles hosted on the [redacted] platform. We recently discovered errors in many institutions' usage statistics for March 2014. The problem has been corrected, and we recommend that your institution re-run its COUNTER-3 usage statistics for 2014 to be sure that you have accurate data for all of your holdings hosted on [redacted].

Only one month's data was affected, but the differences are significant for some libraries.

To view your library's holdings and to run corrected usage reports, please visit the Manage My Account page at [redacted].

Your institution's [redacted]

We do apologize for this inconvenience. We have fully audited our usage reporting systems and expect accurate data reporting—now COUNTER-4 compliant—going forward.
